

Brexit Update - Green Card guidance

Brexit Green Card Requirements

As a consequence of leaving the European Union (EU), the UK entered a transition period which ends on 31 December 2020. In the event there is no agreement on the future relationship between the UK and EU, it is likely there will be a legal requirement to carry a physical document known as a Green Card when driving in Europe.

What this means

In the event it becomes a legal requirement, if you need to drive your vehicle outside the UK you must carry a Green Card if you are driving in an EU or specified EEA country.

The legal requirements of the Green Card system mean anyone driving abroad under a UK insurance policy must carry a physical Green Card.

If you intend to tow a trailer or caravan you will also need a separate Green Card for that too.

Should you require a Green Card please contact us immediately on gemma.lennox@jameshallam.co.uk or telephone **01387 272620**
